ActiveGuard™ Mattress Liner

Use ActiveGuard™ Mattress Liner on bedding, e.g. mattress, air mattress, box spring, sofa bed, etc. Apply to bedding with mattress pad and top sheet.

Kills dust mites *and* bed bugs in bedding.

ActiveGuard™ Mattress Liners, manufactured with patented ActiveGuard™ Technology, are soft, comfortable, completely odorless and easy to use.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Apply on bedding, e.g. mattress, air mattress, box spring, sofa bed, etc.

Fit the ActiveGuard™ Mattress Liner over the bedding. Pull down on the edges of the liner to insure a tight fit against bedding. Place another surface such as mattress pad, barrier encasement or bottom sheet over the mattress liner.

If the liner is installed for house dust mites: after eight (8) weeks remove the ActiveGuard™ Mattress Liner and vacuum your bedding thoroughly while ventilating the room. Removing the liner to vacuum the bedding is not required for liners installed for bed bugs. For best results, use new filters and fresh bags in your vacuum cleaner. If you suffer from dust mite induced allergies, have someone else vacuum your mattress.

Re-apply the ActiveGuard™ Mattress Liner on your bedding immediately, and then leave the mattress liner undisturbed for two (2) years. No need for further removal or vacuuming.

Note: Washing the ActiveGuard™ Mattress Liner removes the active ingredient and reduces the effectiveness of the product against dust mites and bed bugs.

Follow the above directions for re-applying or fitting a new mattress liner.

For best results, replace with a new ActiveGuard™ Mattress Liner every 18 months.

Note: Wash hands immediately after applying or fitting the ActiveGuard™ Mattress Liner.
